

# Help Build Hope 2022

Build all the walls of a house in one day!

Join us as we build all the frame walls for an entire Habitat for Humanity House in one day. Organized into teams of 5-10 (in household groups as much as possible), we'll hammer together 30-40 frame walls in just a couple of hours, which will be transported to a local foundation for Habitat for Humanity.

All ages and skill levels welcome! All the wood will be precut, so if you can swing a hammer or hold a 2x4 in place, we need you! We even provide the hammer and nails. Children are welcome to work with their families. We will also have play ground attendants available if your kids need a little break from hammering!

**When:** Saturday, July 9 at 8:00 am

**Where:** Christ UMC

12755 NW Dogwood St, Portland

**Bring:** Your work gloves and sunscreen
