How to get a vaccine:

Make an appointment online at:

<https://www.signupgenius.com/go/10c0d45aeae29a7ffc61-beaverton>

To ensure enough doses, an accurate headcount is needed. **EACH individual to be vaccinated must be entered separately.**

To sign-up additional members of your household, please return to the online form and create a new submission for each individual.

Drive-up with appointment or drive/walk-ins are available.

Vaccines for free

- Health insurance is NOT required. But if you have insurance, bring your insurance card.

Second Dose

- If you come for the 1st dose, the second dose will be Monday, July 12, 2021

COVID-19 vaccines are the key to reopening Oregon.

We all want to return to normal life as soon as possible. Safe and effective vaccines are making that return to normalcy a reality. More groups are becoming eligible for COVID-19 vaccines in the coming months. All Oregonians 16 and older will be eligible for a COVID-19 vaccine no later than May 1, 2021. Find out if you are currently eligible by visiting getvaccinated.oregon.gov or by calling 211 (toll free).

Why should I get vaccinated?

- Many tests and studies have shown that all the vaccines are safe.
- Each vaccine was tested in studies with tens of thousands of volunteers to check for safety.

Vaccines are effective

- All the vaccines are effective at preventing serious illness or death from COVID-19.
- The best vaccine is the one you can get.

COVID-19 vaccines are free to everyone

- You may be asked to provide insurance information, but you will not be charged. You can get the vaccine for free if you do not have insurance.

Vaccines benefit our community. If you get your COVID-19 vaccine you will:

- Prevent yourself and your loved ones from getting infected.
- Make sure our community can reopen safely.
- Put us one step closer to ending the pandemic.
